Personal Web Site/Annotated Bibliography

Must be posted online by the beginning of class time, September 23

Your annotated bibliography must be posted as a web page and must have at least 20 references. No more than five of these can be references to web sites or web pages. You must have read and be able to write a good synopsis ("annotation") for each. Each annotation is expected to have a maximum length 100-150 words, although somewhat longer lengths are acceptable. There is no specific minimum length, but a good annotation should be written in complete sentences and should be longer than a single sentence!
