CLASS NOTES: 10/9- Hardware Document-Front Matter and End Matter
Writing Faculty: Nicole Kelley (617-285-5568), Jennifer Craig (x2-3841)

Key Elements of an Introduction

Based on class discussion, you want to address the following issues in your introduction (not necessarily in this order):

- Define terms (e.g. RoboFlag)

- Define the purpose of the document

- Explain background

- Define the problem you are attempting to solve

- Explain your method (& team structure)

- Explain what it is you're building

- Describe physical object

- Outline general timeframe

Material for Appendices/ End Matter (works-in-progress)

- Schedule

- Budget

- Test Plan

- Calculations

- Detailed Requirements (as opposed to high-level requirements)

- Hardware list
