

A **guitar attachment** that allows songwriters to **transcribe directly to tab.**

EXPERIENCE

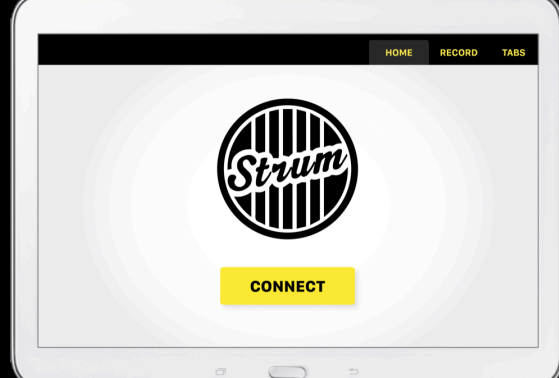

Install our custom saddle

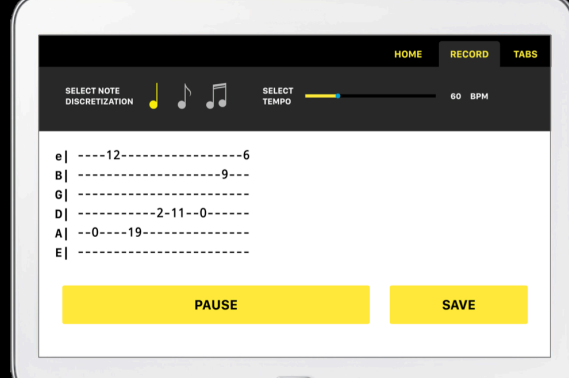

Attach the microcontroller unit

Turn on the microcontroller

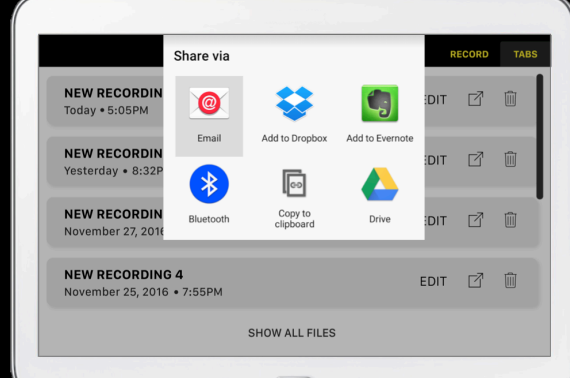

Pair application to guitar attachment via Bluetooth

Record what you play

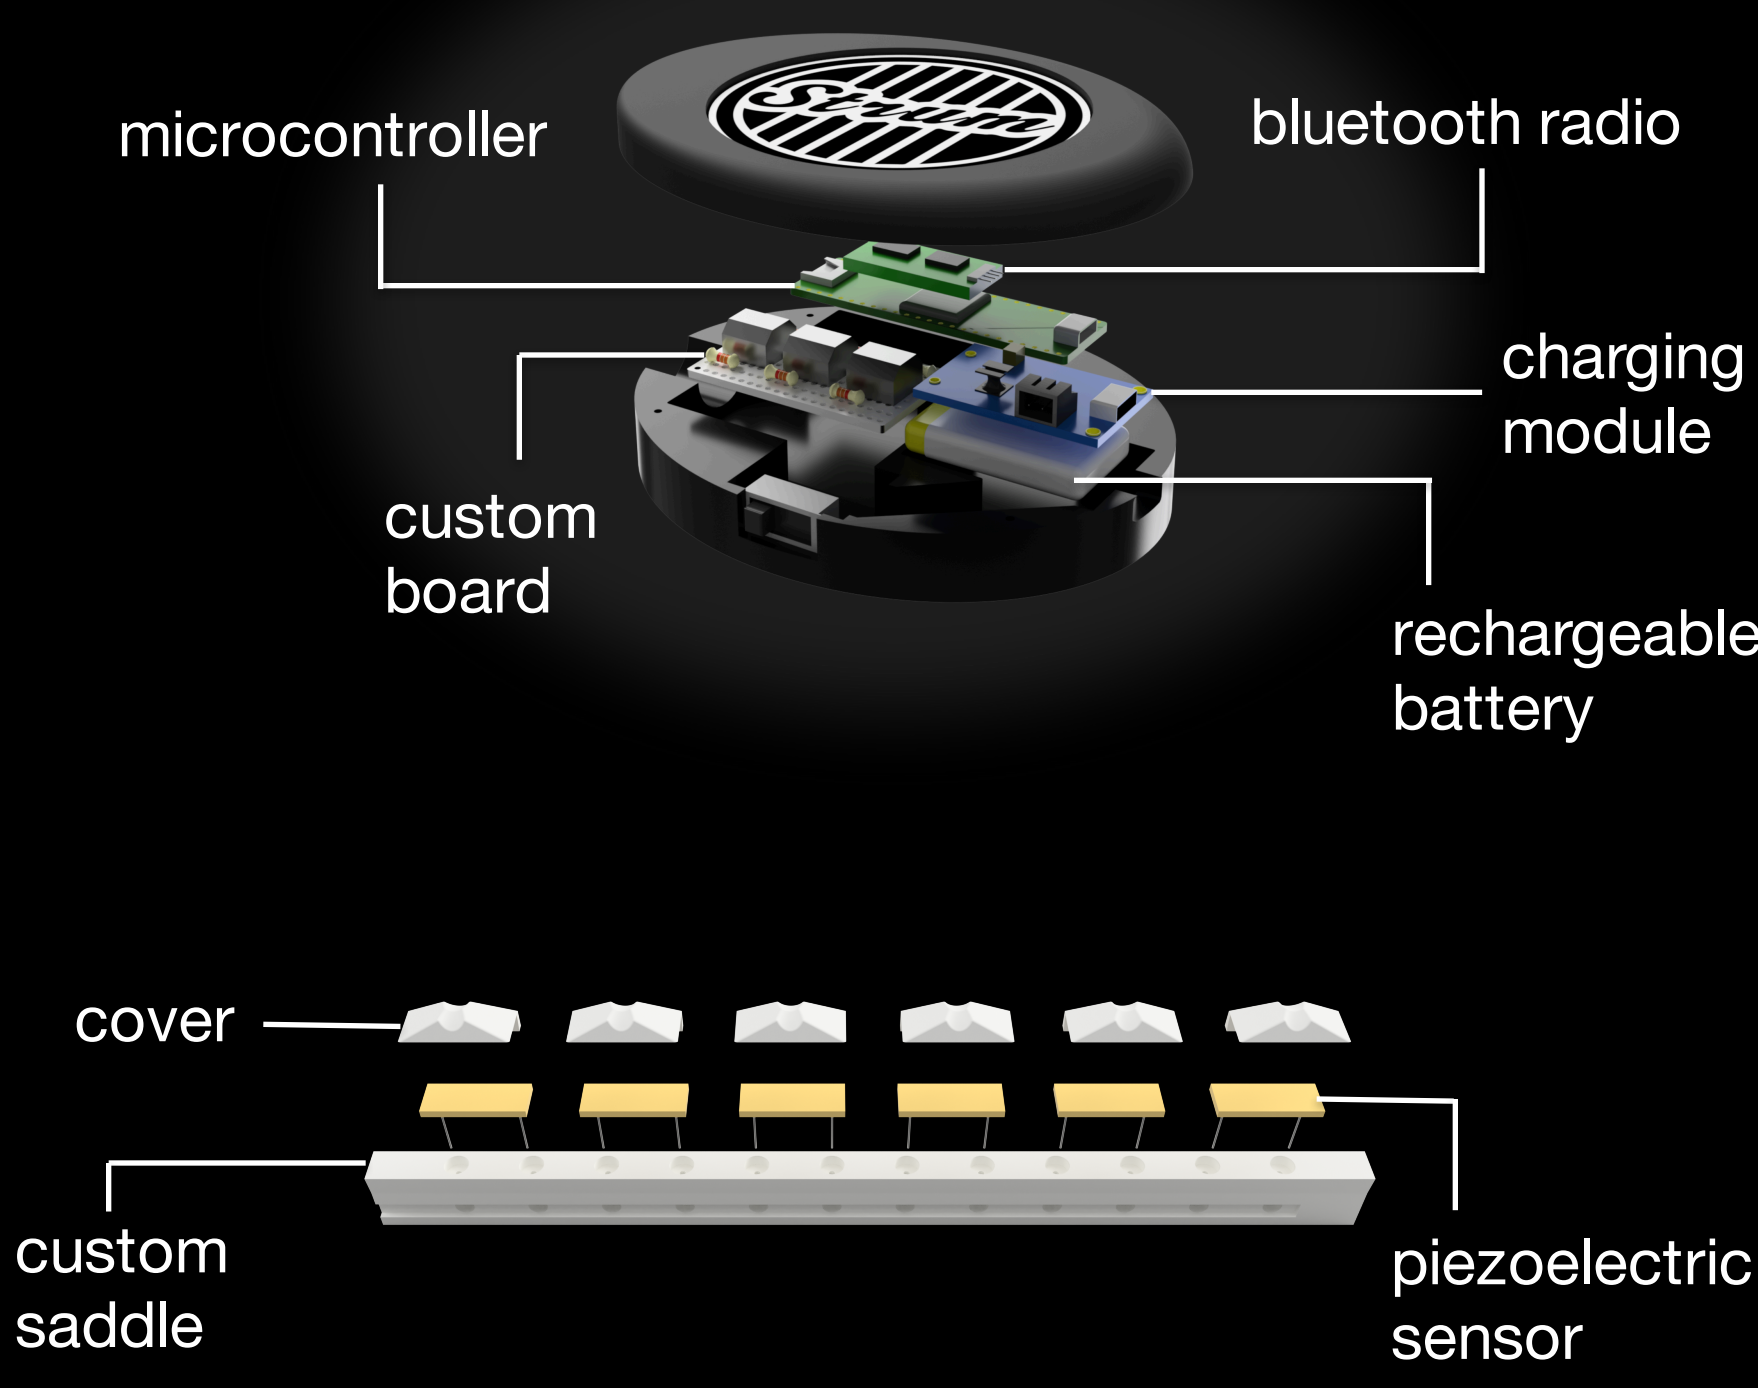

Tablature, a guitar specific notation, appears on the screen

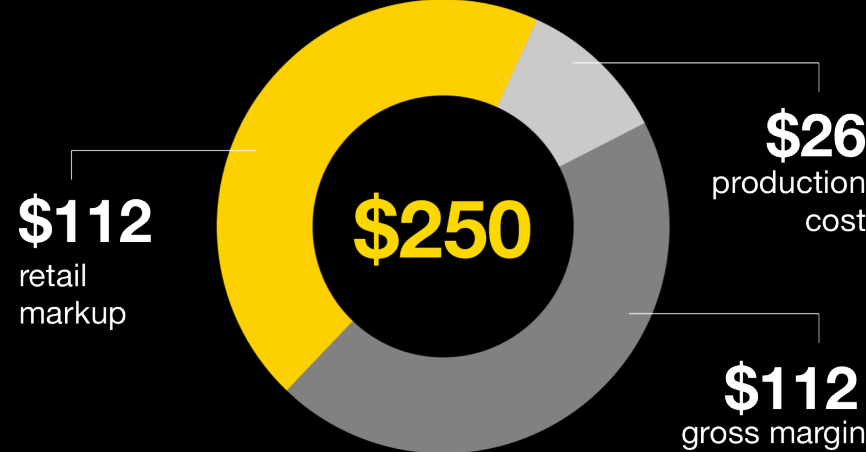

Save your tabs in the application

Share with band mates, students, and friends

COMPONENTS

BUSINESS PLAN

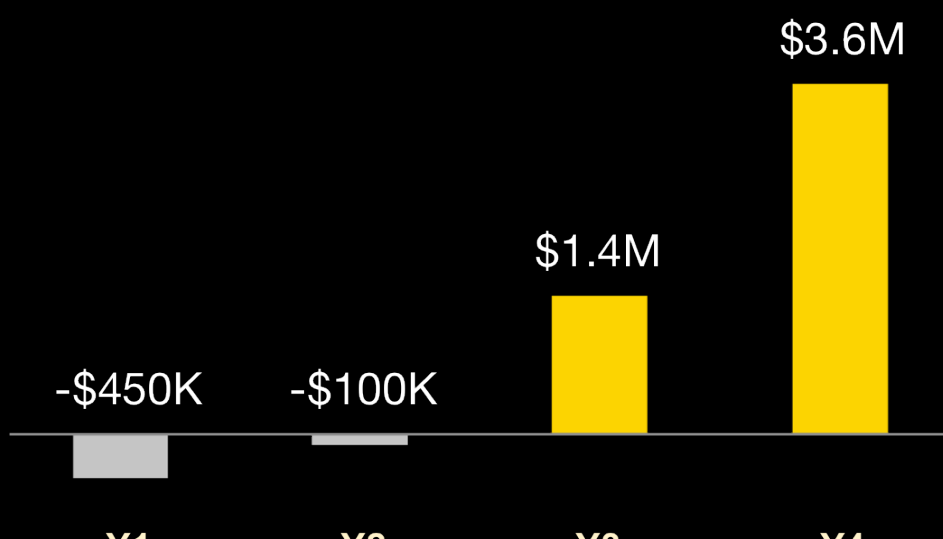

\$550K initial investment

4% of international market by Y4

3 years to break even

7% market capture by year 4
