

Hangin' In There - Careful Now!

Medical Evac Entrance:

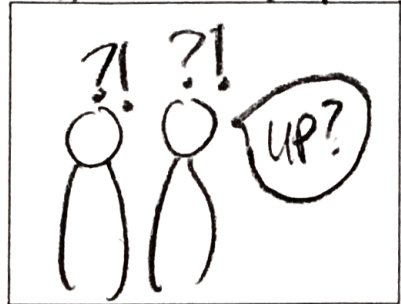

There is saving people - thin precursor carrying

Stretcher Inside

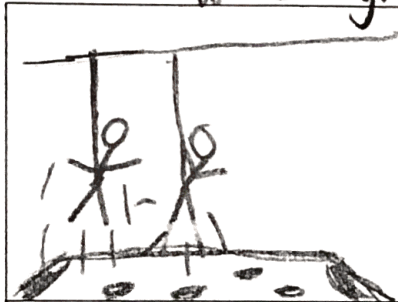

Need to move w/o tipping or rocking too much. Floor is lava

Goal: EVAC drop

Need to move over. Big empty spaces. People can jump between safe spots, but that can't balance person

Do it while hanging

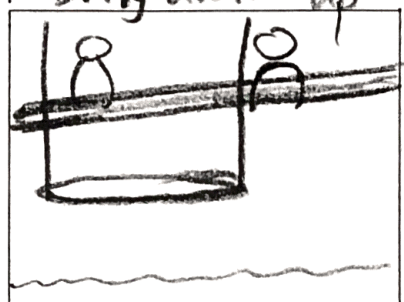

harnesses on ceiling. People get in

Move up w/ Harness

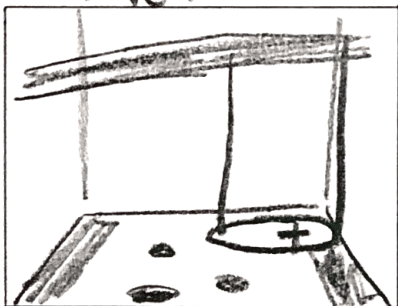

Can press electric button to go up. Higher up you can walk on beams.

Bring Beam up

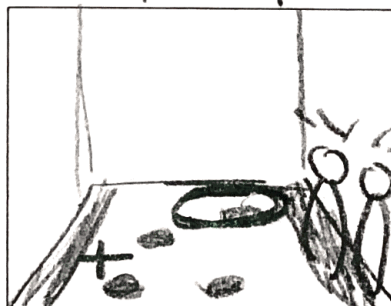

Beam & stretcher up to 2nd level, walk w/ team across and lower.

Leave Harness

Door unlocks, let the harnesses in new spot.

Set-up Complete.

Previous team set-up sequence for next play. Ready to go!
