web design 101
Design DNA: A buildable, wearable DNA kit!

Nucleotides! Phosphate groups! Bases! Hydrogen Bonds! The pieces of DNA are small, snap-fit pieces that have a silvery finish to them; wearable for all ages.

Phil: We can't take these home? :(
Mom: These belong to the museum, Philly.

Click on a storyboard thumbnail to jump to that panel.
A exploration of what can be accomplished using CSS-based design.

**The Road to Enlightenment**

Littering a dark and dreary road lay the past relics of browser-specific tags, incompatible DOMs, broken CSS support, and abandoned browsers.

We must clear the mind of the past. Web enlightenment has been achieved thanks to the tireless efforts of folk like the W3C, WaSP, and the major browser creators.

The 2.744 Zen Garden invites you to relax and meditate on the important lessons of the masters. Begin to see with clarity. Learn to use the time-honored techniques in new and invigorating fashion. Become one with the web.
