

Lecture 1

*Lecturer: Job Steves**Scribe: Gate Bills*

1 Administrative Comments

This is an example text and there may be no truth in the text. It is written for the purpose of explanation.

The course instructor is S. Mitter and D. Shah, the TA is Mukul Agarwal (magar@mit.edu). Course admin is Rachel Cohen. Send email to (rcohen@mit.edu) to get onto course email list.

Grading This is a way to create a sub-section in the main section.

2 Goals of Life

Live well and listed as follows:

- Identify important life problems,
- Analyze what kind of resources they need to be solved.

2.1 Events of Life

They happen in the following (more stringent) way

- Event L_1 to L_2 ($L_1 \rightarrow L_2$) is a transition $T : \{0, 1\}^* \rightarrow \{0, 1\}^*$ such that

$$x \in L_1 \leftrightarrow T(x) \in L_2$$

Finally, here is how you include figure. Here we have include figure in .eps (Encapsulate Post-Script) format that can be created by you using multiple types of figure drawing softwares, such as Xfig. The Figure can be referred in text as Figure ??, because its label is fig1 given below.

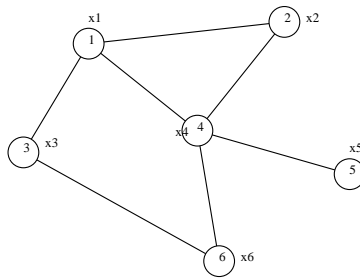

Figure 1: A Nice Graph.
