Reading Question Week 10 Day 1

For each day’s reading question, write your name, section, table, and group number on the upper right hand corner of your answer and hand it in at the start of class that day.

Nov 4/5 W10D1 Angular Momentum
Reading Assignment
Chapter 19 Angular Momentum, Sections 19.1-19.6

Reading Question

(1) In your own words, explain the concept of angular momentum based on an example of your choice. In particular do not write down a formula but explain the meaning of each term in the formula and the direction of the angular momentum.

(2) Under what circumstances is the angular momentum of a point particle about some point constant or non-constant?
