CLASS PROJECT SCHEDULE

Here are three remaining milestones for the course projects:

1. Outline: Due date: Tuesday Oct 30th. Please hand in a *detailed* outline of the topics that you will cover in the paper. It should be detailed enough that that it will not be difficult to expand the items in your outline into sections of your paper.
2. Completed paper: First draft due right before Thanksgiving: Tuesday November 20. *This will be a hard deadline!* No extensions are possible due to the holiday and to the need to do presentations after Thanksgiving.
3. Project presentations: Two presentations per day, November 27 and 29, December 4, 6, and 11.
