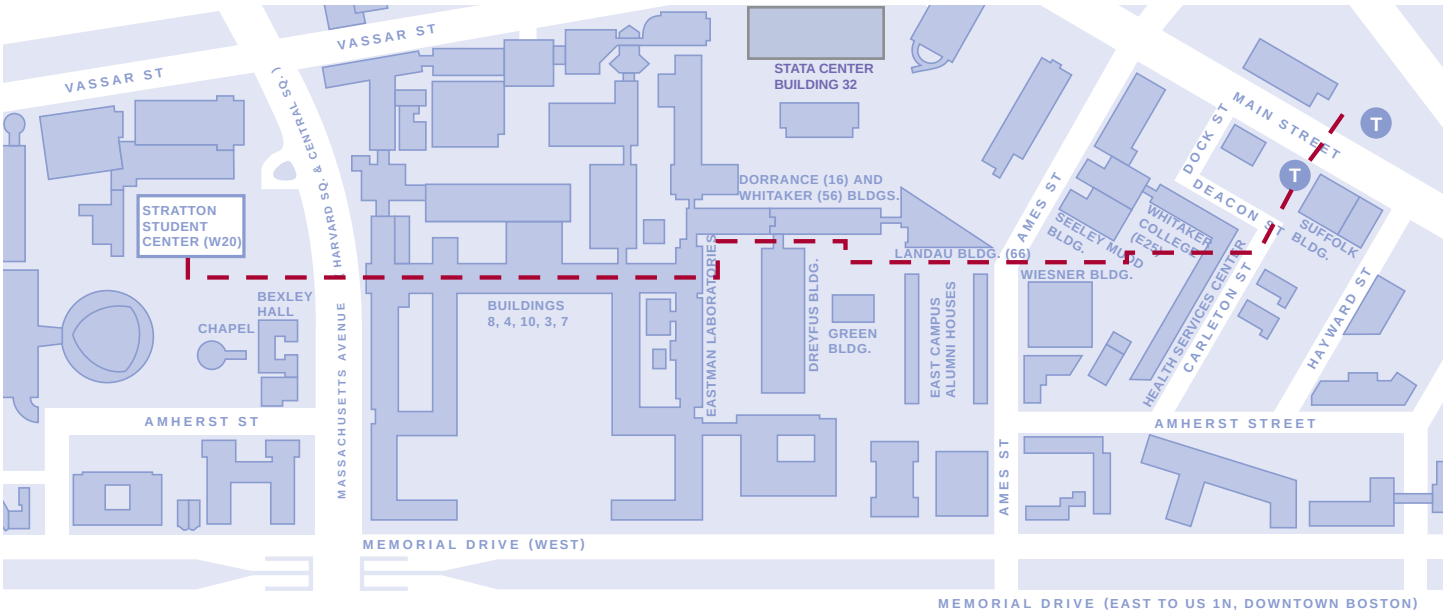
Kendall/MIT Subway ("T") Stop to MIT Stratton Student Center



Directions

Take escalators up to street level. Once at street level, if you were traveling "Outbound" (from Boston), cross the street (Main Street) and walk past the "Inbound" (towards Boston) subway entrance. If you were traveling Inbound, you will already be on the correct side of Main Street. Cross Deacon Street and walk up steps through Whitaker College (E25), the tall brick building on your right. After exiting Whitaker, walk directly across the open space towards Ames Street. Go down the steps and cross Ames Street. From here, you can choose to walk inside or outside...

Outside: After crossing Ames Street, walk along the sidewalk going southwest. Where the sidewalk ends, walk left for a tiny bit and go up the stairs and through the glass doors. No, there is no light in the attic.

Inside: Enter the Landau Building (66), slightly to your right. The building is in the shape of a triangle, so the entrance will be at a corner of the triangle, not on a flat side. Once in 66, walk all the way down the left hallway, turn right (the other leg of the triangle) and turn left into a short glass hallway. Keep going through buildlings 56 and 16. (You should pass a computer room with glass windows on your left while in 56.) At the end of the hallway, turn left, walk a bit, and go up the stairs. Walk through building 8 (you should pass a short door on your left). Turn right at the first intersection (the left turn will lead you outside).

Welcome to THE INFINITE! Walk down this hallway. If you're keeping track of building numbers, this will be 8, 4, 10, 3, 7 in order. At the end of the Infinite, you'll be in Lobby 7. Exit using one of the three sets of doors; the middle one receives the most traffic, but is automatic. Once you're outside, descend the steps, wait for the traffic light to turn red, and cross the street. Walk straight forward, and the building on your right will be Stratton Student Center (W20). Enter and go up to the 2nd floor for CPW check-in.

WELCOME TO MIT!!
