

Bio: Abhi is a doctoral degree candidate in the Department of Aeronautics and Astronautics and is defending her dissertation on May 11, 2016. She received her S.M. degree from MIT and her B.S from Georgia Tech in Aerospace Engineering. Abhi envisions a world where robots can be seamlessly integrated into high performing human teams. For her PhD, Abhi is studying communication strategies for effective human-robot team coordination. Aside from her research, Abhi enjoys participating in STEM outreach opportunities including creating videos such as this one: <https://www.youtube.com/watch?v=y2vzH1MjRqQ>. She is also passionate about aviation, earning her Commercial Pilot License (CPL) and Certified Flight Instructor (CFI) license in 2010.
