

Ann Dietrich is currently a PhD candidate at the University of Colorado in Boulder, studying satellite relative navigation around asteroids. She has held the NSF Graduate Research Fellowship and the H. Joseph Smead Fellowship while at CU, and will be interning at NASA JPL this summer, working on navigation for the Rosetta mission. She received her Masters from CU in 2014, and her Bachelors in Aerospace Engineering from the University of Florida in 2012. She is an acclimated Boulderite, enjoying climbing, yoga, and hiking with her dogs.
