

**BIO:**

Dr. Favaro earned her Ph.D. in the department of Aerospace Engineering of the Georgia Institute of Technology, in March 2016. Before joining the Space System Design Lab at Georgia Tech, she earned a BS and MS in Space Engineering at the Politecnico di Milano, Italy. Her research involves various aspects of system safety, accident causation, and risk assessment. She has authored nine peer-reviewed journal publications and several conference proceedings. Dr. Favaro was the recipient of the Amelia Earhart Fellowship in both 2013 and 2015. Additionally, she serves as reviewer for Elsevier's Reliability Engineering and System Safety, and is currently working on her first book.
