

Anne Marinan earned her B.S. in Aerospace Engineering from the University of Michigan, Ann Arbor in 2011 and her SM in Aerospace Engineering from MIT in 2013. She is a NASA Space Technology Research Fellow and a PhD candidate in the Space Systems Laboratory and Space Telecommunications, Astronomy, and Radiation (STAR) Laboratory in the MIT AeroAstro Department. While at MIT she has also been involved with the Women's Graduate Association of Aeronautics and Astronautics (WGA³) and Graduate Women at MIT (GW@MIT). Her research interests include systems-level analysis and design of nanosatellite constellations, nanosatellite weather sensing, and applying adaptive optics to space-based applications.
