

Nhung Nguyen's Biography

I am currently a research associate in the William E. Boeing Department of Aeronautics and Astronautics, University of Washington, Seattle. My postdoctoral research focuses on understanding the damage and failure of composite material using validated, physics-based computational models with finite element analysis. Prior to this position, I completed a BSc in Mathematics and Applied Mechanics from Vietnam National University, Hanoi in 2008. From 2009 to 2014, I pursued my PhD study in the Department of Mechanical Engineering, University of Michigan with a focus on solid mechanics and materials.
