

Elena is a 4th year PhD student at the University of Maryland working with Dr. Inderjit Chopra at the Micro Air Vehicle Lab. She is a National Science Foundation Fellow and an Amelia Earhart Fellow. She was previously selected as one of Aviation Week & Space Technology's Twenty20s and has received numerous awards and recognition for her work on developing the Cyclocopter Micro Air Vehicle. She is also one of the founding members for the Women in Aeronautics and Astronautics (WIAA) group in her university and currently serves as the Graduate Vice President.
