LIVING GROUP COUNCIL

RESOLUTION IN SUPPORT OF THE AILG STRATEGIC PLAN

Enacted on Wednesday, May 09, 2012

The LGC has reviewed the Association of Independent Living Groups' strategic plan and believes it will be potentially useful in improving the situation of the independent living groups and the FSILG community in general. Therefore the LGC wishes to support the continued evolution of the plan and will consider implementing its recommendations.

To this end, and to ensure effective communication between the LGC and the various parties involved in the plan's administration, the LGC Secretary will be a member of the Strategic Plan Executive Committee. The LGC may also appoint representatives to other related groups (such as the Strategic Plan Advisory Board) as appropriate.

The LGC is resolved to actively participate in making the plan as beneficial as possible, and to implement those recommendations it finds constructive.

By June 1st, the LGC speaker will submit to the Strategic Plan Executive Committee a document detailing the LGC's concerns with the current form of the plan and its recommendations for improving it.
