Subject: [mitailg] Thank You - FSILG Community Meeting Follow Up
Attachments: ATT00001.c

Friends and Fellow Stakeholders of the MIT FSILG Community:

Thank you for joining us at last Thursday's Community Meeting for FSILG Student and Alumni Leaders. We had a great turnout, in person and via phone, and we appreciate the thoughtful questions. We covered many topics including the current restrictions on assembly in Boston, the status of roof decks, and the concern about sleeping lofts. In the coming days a roof deck primer and additional resources related to the topics discussed last night will be posted to the [AILG website](#). As discussed, we are exploring the hiring of an additional architect to help expedite the inspection and plan development process for our assembly numbers. More information will be provided as details become available about the scheduling of inspections by Tom Stohlman (and possible additional assistant). In the meantime, we thank you for your support in helping maintain compliance with the restrictions in Boston (no assembly over legal resident occupancy) and Cambridge/Brookline (temporary 3x legal occupancy for assembly). Our end goal is to address the concerns and ensure that our communities are safe, healthy places for our residents.

If you have any questions, please do not hesitate to contact the FSILG Office or AILG Chair.

Thank you,
Marlena Love, Assistant Dean and Director, MIT FSILG Office
Henry J. Humphreys, Senior Associate Dean of Students, MIT
Steve Baker ('84, Theta Xi), AILG Chair
