

AILG Facilities Committee Meeting July 13, 2016 8:00 am FCI Office W20-020

Attendees: Tom Stohlman, Patrick McCabe, Oscar Argueta, Ernie Sabine, Scott Klemm, Tom Holtey, Bob Ferarra, Peter Cooper (by phone)

Trouble on fourth of July with people on Cambridge roof decks to watch fireworks. Security system on 405 Memorial Drive sorority summoned MIT Security. Security personnel got disrespectful treatment. Numbers on adjacent roof decks probably exceeded residential use limit and social event had not been cleared with DSL. Facilities Committee will offer our help to Brad /DSL.

Lots of new people and reorganizing at DSL.

BSF contract needs to be signed. It should be circulated to the committee and hopefully presented to AILG Board at their 7/21 meeting.

Pika has a proposal for a new ventilation system.

DTD door locks email circulating.

KS is now an MIT owned building (no longer leased to KS?). BSF inspections may no longer be necessary since space operated by MIT.

Next meeting August 10.

Notes by Peter Cooper
