

Alexander J. E. Kell

alex.kell@columbia.edu

Zuckerman Institute
Columbia University
3227 Broadway, New York, NY 10027

Research Interests

Computational neuroscience
Auditory perception and cognition – computation, neuroscience, behavior
Marmoset neurophysiology
Functional organization of auditory cortex
Deep learning
Natural sound statistics
Similarities and differences between sensory modalities (particularly vision and audition)

Education and Work Experience

Columbia University

Postdoctoral Research Fellow at the Zuckerman Institute (2019-present)

Advisor: Elias Issa

Massachusetts Institute of Technology

Ph.D. in Neuroscience (2013-2019)

Advisor: Josh McDermott; Thesis committee: James DiCarlo, Nancy Kanwisher, Shihab Shamma

Dissertation: "Hierarchy and invariance in auditory cortical computation"

Lawrence Berkeley National Lab

Visiting researcher in Life Sciences and Computational Research Divisions (Jan-Mar 2017)

Cold Spring Harbor Laboratory

Computational Neuroscience: Vision (July 2016)

Massachusetts Institute of Technology

Kanwisher Cognitive Neuroscience Lab Technician (2011-2013)

Graybiel Macaque Neurophysiology Lab Technician (2010-2011)

Dartmouth College

A.B. in Neuroscience with High Honors (2006-2010)

Honors thesis studying executive control with macaque neurophysiology

Beijing Normal University

Studied written and spoken Mandarin Chinese (2007)

Funding

2019-2022: NIH F32 National Research Service Award

2014-2018: Computational Science Graduate Fellowship (Dept. of Energy)

Honors and Awards

2018: Advances and Perspectives in Auditory Neuroscience (APAN) Travel Award

2017: International Conference on Auditory Cortex Travel Award

2017: Cosyne Presenter Award
2015: Vision Sciences Society Best Student Poster Award
2015: Association for Otolaryngology Travel Award
2015: Vision Sciences Society Travel Award
2014: NVIDIA Academic Hardware Donation Program (GPU donation)
2010: Neuroscience Center at Dartmouth Award for Best Thesis Presentation
2009: Rufus Choate Scholar
2008: Citation for Academic Achievement in Advanced Modern Chinese

Papers

Kell A., McDermott J. Invariance to background noise as a signature of non-primary auditory cortex. *Nature Communications*. 2019.

Kell A., McDermott J. Deep neural network models of sensory systems: Windows onto the role of task constraints. *Current Opinion in Neurobiology*. 2019.

Kell A.*, Yamins D.*, Shook E., Norman-Haignere S., McDermott J. A task-optimized neural network replicates human auditory behavior, predicts brain responses, and reveals a cortical processing hierarchy. *Neuron*. 2018.

Graduate Coursework (GPA: 5.0 out of 5.0)

CS281: **Advanced Machine Learning** (Harvard) – Adams

6.438: **Algorithms for Inference** – Bresler

6.860/9.520: **Statistical Learning Theory and Applications** – Poggio, Rosasco

18.0851: **Computational Science and Engineering** – Strang

6.338/18.337: **Parallel Programming** – Edelman

9.660/6.804: **Computational Cognitive Science** – Tenenbaum

9.S912: **Vision and Learning: Brains and Machines** – Poggio, Ullman

HST723: **Neural Coding and the Perception of Sound** (MIT/Harvard) – Delgutte, Guinan, Brown

9.011: **Systems Neuroscience** – Miller, Wilson

9.012: **Cognitive Science** – Tenenbaum, Sinha, Gibson

9.S913: **fMRI for Cognitive Neuroscientists** – Kanwisher, Saxe

Invited Talks

2019:

International Symposium on Auditory and Audiological Research; Nyborg, Denmark

2018:

École Normale Supérieure; Paris, France

Computational Science Graduate Fellowship Program Review; Washington, DC

Zuckerman Institute, Columbia University; New York, NY

Johns Hopkins University; Baltimore, MD

Oregon Health Sciences University; Portland, OR

Society for Neuroscience; San Diego, CA

MIT Brain and Cognitive Sciences Department Retreat; Newport, RI

2017:

Computational Research in Boston and Beyond (CRIBB); Cambridge, MA

Cosyne Workshops; Snowbird, UT

Association for Research in Otolaryngology; Baltimore, MD

2016:

Society for Neuroscience; San Diego CA

Auditory Cortex Splash Meeting; Cambridge, MA

Vision Science Society; St. Pete's Beach, FL

MIT Department of Brain and Cognitive Sciences Cog Lunch; Cambridge, MA

2015:

Society for Neuroscience; Chicago, IL

2013:

State Key Laboratory of Cognitive Neuroscience and Learning; Beijing, China

Teaching Experience

fMRI Methods Short Course at Massachusetts General Hospital (October 2015)

TA.

MIT Center for Brains Minds and Machines Summer School in Woods Hole (Aug-Sept 2015)

TA at three-week summer school for thirty graduate students. Lectured on linear algebra.

9.40: Introduction to Neural Computation (Spring 2015)

TA for Prof. Michale Fee's undergraduate class on biophysics and computational neuroscience. Ran recitations on Poisson processes, spectral analysis, PCA, linear algebra, recurrent neural networks, etc.

MIT Center for Brains Minds and Machines Summer School in Woods Hole (June 2014)

TA for cognitive neuroscience at two-week summer school for thirty graduate students.

Brain Imaging Multimodal Short Course at Massachusetts General Hospital (June 2013)

TA and programmer.

fMRI Methods Short Course at Massachusetts General Hospital (October 2012, March 2013)

TA and programmer.

PSYC 50: Evolutionary Psychology; Dartmouth College (Spring 2009, Winter 2010)

TA and study group leader. Gave a class lecture.

Students Supervised

Erica Shook: Center for Brains, Minds, and Machines Undergraduate Researcher (Full-time: Summer 2016, January – December 2017, Summer 2018; UCL Master's thesis: Spring & Summer 2019)

Divya Gopinath: MIT UROP (Spring 2018)

Ariel Herbert-Voss: Center for Brains, Minds, and Machines Summer Undergraduate Researcher (Full-time: Summer 2015)

Outreach

Sheep Brain Dissector (April 2015, April 2016, August 2016, August 2017, April 2018, August 2018)
Represented Brain and Cognitive Sciences Department at prospective undergraduate expo and pre-orientation; dissected sheep brain and walked through gross neuroanatomy with incoming students.

Course Organizer and Instructor (November 2013)
The Meat That Makes You Think: Neuroanatomy and Sheep Brain Dissection
(Neuroanatomy crash course for Boston-area high school students.)

Professional Membership and Service

Cosyne Workshop: "Understanding neural representations with deep neural networks – progress and limitations" (2017)
Co-organized two-day workshop at Cosyne (Computational and Systems Neuroscience).

MIT BCS Seminar Series on Machine Vision and Hearing (2015)
Organized a seminar series on computer vision and machine hearing, which focused on statistical models of natural images and sounds.

MIT Cog Lunch: Organizer (Spring 2015)

Association for Research in Otolaryngology: Member (2014-present)

Society for Neuroscience: Member (2008-present)

Vision Sciences Society: Member (2011-2015)

Ad Hoc Reviewing:

Cognitive Science, *Cognitive Computational Neuroscience*, *Computational and Systems Neuroscience* (Cosyne), *Human Brain Mapping*, *IEEE Access*, *Journal of Neuroscience*, *Nature*, *Nature Communications*, *NeuroImage*

Early Research Experience

Harvard University

Marc Hauser's Cognitive Evolution Lab Summer Research Assistant (Summer 2009)

Caribbean Primate Research Center

Macaque Field Research Assistant (Summer 2009)

Pioneer Institute for Public Policy Research

Summer Research Assistant (Summer 2006, Summer 2007)
