CREATING TEAMS IN IMLEAGUE

STEP 1: Login onto imleagues.com. This will direct you to your player home page. Once registration open you will be able to click on the “Create or Join Teams”. You can also click the MIT button to get to the same page.

STEP 2: Once you get to this page click on the League you want to sign up for under the sport you are interested in.

STEP 3: You will then get to this page. Hover over the register/signup and click Create Team.
STEP 4: Creating the Team
Fill in team information and sign liability waiver. You can come up with a team name and add a Team Logo or you can use one from the website. You will also specify whether or not you are looking for players. Then as the captain you will need leave a contact number in case something comes up.

STEP 5: Inviting Members
Once you’ve created your team you will be directed to a page that looks like this.
You can add members right through the website. Simply click Invite Members.
If team members are already on IM League simply type in their name and add them to the list or use email to invite them.
