<b>Important Information</b>	AP Credit will only be accepted for a Biology requirement if an additional upper level biology course is taken.															
	English requirements are best met by the use of CI-H courses that are not science focused. "L" and "W" courses are the best options.															
	Outside of Freshman year, prerequisites should not be taken on Pass/Fail.															
	Courses older than 5 or 6 years old may not be accepted by medical schools.
