

Massachusetts Institute of Technology

Department of Chemical Engineering

Assistant Professor

The MIT Department of Chemical Engineering (<http://web.mit.edu/cheme/>) invites applicants to apply for a tenure-track faculty position at the assistant professor level, to begin July 2010 or thereafter. Applicants should hold a Ph.D. in chemical engineering or a related field by the beginning of the appointment period. In special cases, a more senior faculty appointment may be possible. The Department is particularly interested in candidates with energy and systems engineering interests. The candidate should have demonstrated excellence in original research. Faculty duties include teaching at the graduate and undergraduate levels. Interested candidates should submit application materials electronically at <https://chemefacsrch.mit.edu>. Each application should include: a curriculum vitae; the names and addresses of three or more references; a strategic statement of research interests; and a statement of teaching interests. We request that each candidate arrange for reference letters to be uploaded at <https://chemefacsrch.mit.edu/letters/>. Questions should be addressed to ChemE-Search-Master@chemefacsrch.mit.edu. Responses received by December 1, 2009 will be given priority.

We especially encourage minorities and women to apply, because of MIT's strong commitment to diversity in engineering education, research and practice.
