Chemical Engineering Masterclass in Visual Strategies

Instructor: Felice Frankel

Wednesday, October 16
4:00 – 5:30 pm
66-110
Refreshments will be served

Workshop Description:
First masterclass is designed to help you present scientific images and graphics for journal submissions and presentations.

Part 1, The presentation component, 90 minutes with Q/A
Open to ChemE faculty, research staff, graduate students and postdoctoral researchers.

Part 2, Will involve breakout sessions, addressing your own work, at a later date, TBA.

Felice Frankel
Science photographer Felice Frankel is a research scientist in the Center for Materials Science and Engineering at the Massachusetts Institute of Technology. Working in collaboration with scientists and engineers, Felice’s images have been published in over 200 journal articles and/or covers and various other publications for general audiences such as National Geographic, Nature, Science, Angewandte Chemie, Advanced Materials, Materials Today, PNAS, Newsweek, Scientific American, Discover Magazine, and New Scientist among others. Her books, "Visual Strategies, A Practical Guide to Graphics for Scientists and Engineers" and "Envisioning Science, the Design and Craft of the Science Image", will be the foundations of this master class.
