Precious Metal Products Division

Vacancy: Graduate Rotational Programme – 3 years
Location: Various Larger Manufacturing Sites across North America

THE BUSINESS
Johnson Matthey is a FTSE 100 company specialising in catalysis, precious metal industrial products, chemicals, and process technology. With operations in over 30 countries and employing around 12,000 people. Its products are sold across the world to a remarkably diverse range of companies and industrial sectors.

JOB PURPOSE
We have opportunities for high-achieving graduates and postgraduates with the potential to become future leaders, who have Engineering, or Material Science degrees and can rotate around our larger manufacturing and refining sites within North America, therefore mobility is essential. The North American programme is looking for graduates who are keen to work in both Manufacturing and Commercial (sales and marketing) roles. The combination of working with an experienced team of JM employees and the opportunity to work at different sites makes Johnson Matthey a great company to work for. You will be given structured training and development relevant to your role.

QUALIFICATIONS AND EXPERIENCE
Candidates must have excellent academic achievements 3.5 GPA with a degree in one of the following areas:
- Chemical or Process Engineering
- Materials Science
Relevant work experience is also essential.

COMPETENCIES
- Have strong interpersonal skills
- Be innovative and pragmatic
- Be a bold and empowering leader
- Influential and persuasive
- Demonstrate clear strategic and creative thinking with the ability to view topics and issues from a range of perspectives.
- Be well organised and able to work with challenging deadlines.
- Work well within a team, but able to lead by example
- Be honest and have integrity
- Be assertive and confident whilst demonstrating tact and diplomacy

WHAT WE OFFER
- Competitive salary
- Performance related pay
- Individual performance bonus
- Relocation and property rental allowance
