Third to final year Ph.D. students in Chemistry, Chemical Engineering, Materials Science, and Physics are cordially invited to visit our R&D Facility and present a poster.

Annual Student Poster Day

May 27, 2014
Billerica, MA
Apply by April 15, 2014

- Network with our scientists and engineers
- Present your research
- Tour our labs
- Meet our Chief Technology Officer

We are a performance materials company with a global footprint that is headquartered in Boston. We design and produce materials that include graphene, carbon blacks, inkjet colorants, metal oxides, activated carbons, and security taggants. Our products enhance the performance of batteries, plastics, coatings, inks, liquid crystal displays, tires, adhesives, and many other products.

If you are interested in participating in this year's event, please email an electronic copy of your poster title, abstract, department, and expected graduation date for review to daniele.arnold@cabotcorp.com by April 15th, 2014. Selected participants will be informed by April 29, 2014. Transportation to and from Billerica will be provided. Breakfast and lunch will be served. Prize for best poster!
