SPECIAL DISCUSSION:
E.O. Wilson’s Life on Earth for the iPad

Gael is Director of Molecular Visualization at HMS, founder & CEO of Digizyme (www.digizyme.com) and coauthor/digital director of E.O. Wilson’s “Life on Earth” digital biology textbook for the iPad. It’s Apple foray into developing digital textbooks which will truly change education at all levels. It’s gotten a great deal of attention – see below and scroll down to view the video.

GAËL MCGILL

March 20, Tuesday
7PM
Room 4-270

This is a special presentation open to the MIT community for our course 10.606 VISUAL STRATEGIES

Gael will discuss how he thinks about his process and what tools he is using developing to create his company’s amazing visualizations.
