Dear Klavs,

The USC Viterbi School of Engineering is pleased to invite outstanding Junior-year engineering students to apply for the Undergraduate Summer Research Program.

Students have an opportunity to spend summer break working alongside USC’s world-class faculty on cutting edge research in engineering and computer science. Students will make new friends, gain valuable research experience, and receive a stipend for living expenses in Los Angeles!

Students interested in learning more about this exciting program are invited to join us for an upcoming webinar:

**Wednesday, February 15, 2012 at 11AM PST**

OR

**Wednesday, March 14, 2012 at 11AM PST**

[Register Here](#)

Applicants to the Summer Research program should be outstanding undergraduate students in engineering or computer science who will begin their senior year in Fall 2012 and must be US Citizens or Permanent Residents. I encourage you to share this webinar invitation with any of your eligible Junior-year students.

Some of this summer’s exciting research projects include:

- A New Form of Cognitive Architecture for Virtual Humans
- Nano Informatics
- Chip-Scale Radars
• Game Theory for Security
• Human-Centered Information Processing
• Anomaly Detection in Large Scale Networks
• Generating Electrical Power at Small Scales
• Microbial Fuel Cells (MFCs)
• Learning Algorithms in Human-Robot Interaction

We look forward to meeting your students at our sessions!

Best regards,

Laura Hartman
