2 Summer Positions  
Analytical Instrument Systems, Inc.  
Flemington, New Jersey

Summer positions for 2 undergraduate math, engineering or mechanical engineering students. For the math or engineering position students should have an excellent understanding of advanced algorithm development, C sharp, Java or Labview. For the mechanical engineering position, the student must have extensive knowledge in the use of Solidworks and general mechanical design principals.

These positions are at Analytical Instrument Systems, Inc. located near Flemington, New Jersey. A student is preferred to be in the area however it is not necessary.

Please send your resume for immediate consideration to: ais@aishome.com, address the Email for Summer Employment, to Dr. Don Nuzzio.
