Dear Dr. Pawson,

Here is the tracking number for the sample. They should arrive by Monday. Please let me know if there is any further information that you need upon arrival.

[Track FedEx package 8769 0364 9453](#)

Thank you,
Ashley

Dear Dr. Pawson,

We are currently in possession of the following specimen on loan from the Department of Invertebrate Zoology (report attached):

USNM E13769 Colobocentrotus atratus – Echinoids 1 1 Dry
Phylum thru Family: Echinodermata Echinoidea Echinometridae

We apologize that this specimen is past due and we would like to return it to the Smithsonian Institution immediately. We will be mailing it by Fed Ex overnight express shipment and will be emailing you a tracking confirmation as soon as it is mailed.

I wanted to confirm that we should deliver this sample to

Smithsonian Institution

National Museum of Natural History
Department of Invertebrate Zoology
Museum Support Center, MRC 534
4210 Silver Hill Road
Suitland, MD 20746

or instead to the courier delivery address posted on your website.

Thank you,
Ashley

I am pleased to approve the loan extension for the gastropod specimens for a period of six months.
Dave Pawson will have to approve the loan extension for the echinoid.
