

SUSTAINABLE TRANSPORTATION

AN INTERNATIONAL PERSPECTIVE

A NOTE OF THANKS Editorship is an adventurous journey. I learned a lot and enjoyed it – and it could not have been possible without my mentors and supporters. First, I would like to thank Larry Vale, my faculty advisor, for his support, his guidance and practical advice throughout the process of bringing this *Projections* volume to life. I am also grateful to Ezra Glenn for pushing forward this volume and the journal's future.

I would like to thank the authors, who contributed through their knowledge to this volume, iterated patiently through several revisions, and showed tremendous passion for their fields of expertise. I also would like to thank the editors for giving advice that improved this *Projections* volume significantly.

The former managing editors of *Projections* were very open in sharing advice - thank you Anna Brand, Isabelle Anguelovski and Rachel Healy. I hope you will enjoy the layout of this volume, and would like to thank Marissa for designing and improving the graphic design with her ideas.

- EVA KASSENS, 2009

Dr. Zmarak Shalizi

Independent Scholar, Director of the World Development Report 2003, former Chief of the Transportation Division, World Bank

Dr. Christopher Zegras

Assistant Professor of Transportation and Urban Planning, Department of Urban Studies & Planning, MIT

SUSTAINABLE TRANSPORTATION

AN INTERNATIONAL PERSPECTIVE

COVER IMAGE Map courtesy of Eva Kassens; data courtesy of World Resources Institute, 2005. This map shows CO₂ emissions by transport as a percentage of emissions. The more grey the continent, the higher the CO₂ transport emissions in relation to total emission of that continent; the more green the continent, the lower the CO₂ transport emissions in relation to total emission of that continent.
