

Name: Theodore (Ted) Golfinopoulos

Position: Co-President

Personal Statement: I've been really impressed with the organizational power of GSA over the past year, and was proud to see students work together as an entire department, especially during the open house last March. I'd like to help continue this spirit of cohesion next fall, and to try to expand the GSA's activities to include, for example, educational outreach projects and other service activities. Once mobilized, the EECS graduate students make a pretty effective team for most any project, so let's get mobilized and get something done. Cookies may be involved of assorted flavors and sizes . . . .
