

Instruction to authors for preparing and submitting a paper to GHGT-9

The Proceedings for GHGT-9 will be published on-line by Elsevier through Proceedia (a new on-line proceedings service) and be made available through Science Direct. This will allow citation of authors' work in journals and other publications. Note that in the proceedings, there will be no distinction made between oral and poster presentations.

A CD-ROM version of the proceedings will also be produced after the conference for those attending the conference. The CD-ROM will be fully searchable and will allow the papers to be accessed through a table of contents.

Elsevier, as Publisher of the GHGT-9 Proceedia, will require authors to assign copyright of their GHGT-9 articles to Elsevier in all forms and media, in all languages, for the full term of copyright, effective when and if the article is accepted for publication. This transfer includes the right to provide the Article in electronic and online forms and systems. A transfer of copyright form will be sent to authors under separate e-mail.

Authors retain (without the need to obtain further permission) rights to use certain versions of the article for certain scholarly purposes (see <http://www.elsevier.com/wps/find/authorsview.authors/authorsrights> for more details) and that no rights in patents, trademarks or other intellectual property rights are transferred to the Proceedia.
