 Re: Medical Services for NEWMAC Cross Country Championships

Welcome to the NEWMAC Cross Country Championships. We are glad to be your host. During this event our main role will be emergency care and treatment of injuries sustained during the race. We will also be available for pre-race preparation for things like blister care and taping. Because we will not be working from our athletic training facility, treatments (hot pack, ultrasound) for chronic injuries will not be available.

Visiting Certified Athletic Trainers (ATCs) will have unrestricted access to our facility and are welcome to join us in the medical area as we would be glad to put you to work. You will find us set up and ready at least one hour prior to the first event.

If your team will be traveling without an ATC please let us know ahead of time and send your team to us with any written instructions and medical supplies that they may need. We will do our best to ensure continuity of care for your athletes.

If your team will be traveling with an athletic training student we ask that you let us know so that we may be sure to follow appropriate state practice acts. Also, please be sure to have them introduce themselves and represent themselves as athletic training students.

If at any time you have any questions or comments about the services available or the care provided by our athletic training personnel you are encouraged to contact me at 617-253-4908 or our Assistant Director of Athletics, John Benedick, at 617-253-9892.

Athletic Training Personnel

Thomas Cronan	Head AT
Scot Spak	Asst. AT
Jessica Rooney Gallagher	Asst. AT
Lisa Murray	Asst. AT
Brett Phelan	Asst. AT
Michelle McLeod	Asst. AT
Elise Plunkett	GA. AT
