Welcome!

MIT’s classrooms play an important role in supporting the teaching and learning environment for faculty and students. I am writing to seek your help in providing feedback regarding your experience in our classrooms.

This survey is voluntary and you may answer as few or as many questions as you wish. That being said, there are several required fields, without which the data will not be useful: subject, term, classroom, and your rank. Please be assured that the survey data will be kept confidential and analyses presented in summary form.

Since this will be the fourth term that we have done the survey, you may be interested in reviewing the aggregated data from the past three survey administrations. The data is available at:

http://web.mit.edu/ir/surveys/

I should also note that we have been able to solve some of your problems in your classroom that you have brought to our attention such as replacing the motorized chalkboards in 10-250.

Thank you for your time. Your response will greatly help us plan for future renovations.

-Mary Callahan
Registrar

In the first part of the survey, you will answer a few questions about yourself and list the classrooms (up to four) in which you taught. You will then be asked to give input on each classroom you listed. Each classroom should take 5-10 minutes to evaluate.
