#### Wireless Codes:

Unmanaged House installed consumer grade wireless devices installed ad-hoc throughout house  
Unmanaged + House installed consumer grade wireless devices installed throughout house with a design process. Works well.  
Unmanaged - House installed consumer grade wireless devices installed throughout house with a design process. Barely works.  
Controlled House or professionally installed managed wireless equipment.

#### IRDF Column

x Wired and wireless network enhanced through IRDF grant  
wired Wired network only enhanced through IRDF grant  
wireless Wireless network only enhanced through IRDF grant  
professional Professional network installation paid for by house, not IRDF
