Under the direction of the Information Technology Governance Committee (ITGC), The MIT Student Systems Steering Committee (SSSC) will work collaboratively and proactively to ensure the vision of a student system worthy of MIT is achieved.

The SSSC will:

1. Prioritize and approve education system projects, annual investments and resources to ensure projects align with SIS Next Gen strategic priorities and guiding principles and with the vision put forth by the Institute-wide planning taskforce
2. Advise Education System Sponsors
3. Define and own the Education Systems Roadmap and recommend any Roadmap modifications to Sponsors
4. Provide alternatives for consideration
5. Ensure proper oversight for IT projects and that subject matter and technical experts are made available from each of their organizations as needed
6. Advise ITGC on education systems IT matters at MIT
7. Ensure Functionality and technology are constantly improving, driving our Education Systems towards the next generation in order to meet community expectations of the world’s leading technical institute
