We, the undersigned, believe that the USA PATRIOT Act infringes upon our constitutionally guaranteed rights of freedom of speech, freedom of religion and freedom to assemble. We also believe that it infringes upon our constitutional right to due process and counsel in criminal proceedings, our right to protection from unreasonable search and seizure and associated privacy rights.

As residents of Somerville, we call upon our elected city representatives to pass and enforce legislation protecting these aforementioned rights against the USA PATRIOT Act, the Total Information Awareness project and any other similar federal actions. We therefore support the Somerville Bill of Rights Defense Committee's resolution to make Somerville a Civil Liberties Safe Zone.
