

MISTI > Australia & New Zealand

MIT's flagship international program, MISTI connects companies and labs around the world with MIT talent through its innovative internship program. Working closely with a network of premier corporations, universities and research institutes, MISTI matches over 650 MIT students annually with industry and research internships abroad. We also facilitate hundreds of international faculty collaborations through country-specific and global seed funds and organize international forums.

MISTI AUSTRALIA & NEW ZEALAND PROGRAM

MISTI is establishing an Australia & New Zealand Program (MISTI-ANZ) to raise greater awareness of Australia and New Zealand at MIT and in the Boston business and academic community. MISTI-ANZ aims to create internship opportunities, establish a faculty seed fund, and start an ANZ Forum. Over the course of their internships, students contribute to patents, articles, and new technology. ANZ host organizations also have the opportunity to develop Asia Pacific regional initiatives with MISTI in China, Hong Kong, Taiwan, Japan, Korea and Singapore and explore collaboration possibilities with 17 MISTI country programs around the world.

Value of an Intern

MIT students bring fresh perspectives,
MIT hands-on culture and invigorating
enthusiasm to their projects

5,410

MIT STUDENTS
have gone global with fully-funded
internship, research, and teaching
abroad opportunities

NOTES FROM THE FIELD

Daisy Yuen, Sophomore, Mechanical Engineering:
Designed a recovery pipe at LP Amina in China for a chemical reactor-power plant

Cody Kamin, SM Technology & Policy:
Developed and implemented an entrepreneurship program at Singapore University of Technology & Design
