As required by the MIT Campus Police, all MIT P&R Club members wishing to transport firearms on and off campus must acquire a Campus Firearm Permit. To do so, the member must hold either a current *Firearm Identification Card* or *License to Carry Firearms*. **While your firearm license type will be indicated by your membership card color, your membership card is NOT a campus firearm permit.** Campus firearm permits are issued by the MIT Police.

If your license has been updated since your last application, please paste legible copies of the license you hold below. Regular members holding an LTC will receive an orange card, regular members holding an FID will receive a yellow card, and all associate members will receive a blue card. Your membership card will be mailed to the address specified on this form. Members will be provided with a copy of the MIT P&R Club bylaws upon request.

**New: If you have previously submitted a copy of your current license and its status has not changed, you do not need to submit a new copy. Check your LTC/FID renewal date! If it's more recent than mid-2007, we probably don't have it.**

Note: You do *not* need to attach your FID if you have a License to Carry.
