MIT Museum Presents Professor Donald Sadoway  
February 21, 6:00 – 8:00 PM

### ***SOAP BOX***

***Debating Cutting Edge issues with World-Class Scientists and Engineers***

The MIT Museum has launched a new series of salon-style, early-evening conversations with scientists and engineers who are making the news that really matters.

***Soap Box*** is a public forum for debate about important ideas and issues in science and technology. Launched in partnership with the Boston Globe, *Soap Box* gives its audience the chance to debate serious issues with world-class scientists and engineers in an intimate setting at the MIT Museum.

Professor Donald Sadoway, John F. Elliott Professor of Materials Chemistry in the MIT Department of Materials, Science & Engineering, will talk about fuel cells, batteries, and why hydrogen is not the solution to our need for portable power, will host Soap Box during National Engineers Week.

**Soap Box with Professor Donald Sadoway**

February 21, 6:00 – 8:00 PM  
Robotics Gallery  
Free Admission/Refreshments served.

Overflow accommodations will be held in the Museum's large conference room with a television monitor to the main event.

Look for a profile of Professor Donald Sadoway in the February 20th *Boston Globe* Health and Science Section.

Soap Box will be filmed by MIT Video for release via **MIT World**.
