

Don't miss Soap Box - this fall at the MIT Museum

October 10

A Genius for Change, and the Passion To Do It

Senior lecturer Amy Smith co-hosts with students showing and discussing their latest work on new technologies for the developing world. Co-sponsored with The Technology and Culture Forum at MIT.

October 24

New Lessons in Cancer Research

Biology Professor Jacqueline Lees explains how gene marking will help scientists and doctors better understand tumor growth. This ongoing research is featured in the new exhibition "Zebrafish and Cancer Research."

November 14

Advancements in Underwater Vehicles: Responding to Current Environmental Issues

Research Engineer James Morash talks about how technology advances aid research in areas such as the health of coral reefs and post-storm event water quality.

Soap Box @ the MIT Museum is a series of salon-style, early-evening conversations with scientists and engineers who are making the news that really matters. Webcast live at <http://web.mit.edu/museum/>

Wednesdays at 6:00 p.m. Free admission. Light refreshments.
