Attendee/Speaker Resources

**COMPUTER CAFÉ (W16-035, Main Foyer of Kresge Auditorium):**

Hours: 8 am to 6 pm: Sunday July 24th – Thursday July 28th
8 am to 2 pm: Friday July 29th

Staff members will be available at the Computer Café to help attendees with connectivity and other computing needs. There, attendees will find public PCs for Internet access, as well as printing services for flight boarding passes and other small print requests of no more than a few pages.

**SPEAKER’S BUREAU (W20-301/302, Private Dining Rooms 1 & 2):**

Hours: 8 am – 12 pm: Friday July 22nd;
8 am – 6 pm: Sunday July 24th – Thursday July 28th

Please have your talks uploaded at least 24 hours prior to the start of proceedings. Staff members will be available to resolve computing and presentation problems for speakers in the Speaker’s Bureau. If you’re a speaker having trouble, please stop by and we’ll provide the best assistance we can as quickly as possible.

**Short-Term Network Connectivity for MIT Guests**

MIT offers short-term network service to campus guests. Guests are allowed up to fourteen days of network service when they register on MITnet. To get their personal machine connected to the MIT Guest network, campus visitors need to have wireless network support (WiFi).

For wireless machines, visitors need to make sure the wireless card is on and enabled. In both cases, the machine needs to be configured for DHCP obtaining an IP address automatically. Many machines come with their network cards configured for DHCP by
default. If the machine is running firewall software, it will need to be disabled until the registration process is complete.

Once their equipment is ready, visitors should open a standard web browser and point it to any web page. This will load a registration page automatically. After selecting Visitor registration, the returned page will display the MITNet Terms of Use followed by a registration screen, requesting the visitor’s contact information, number of days of connectivity, and the event for which they are on campus. The network connection takes about ten minutes to activate, and remains active for the number of days selected.

Alumni also have their own network registration area, similar to that for campus visitors.

Enabling Wireless Support in MacOS X 10.5 and 10.6

1) Open System Preferences, either from the Doc or the Apple Menu.
2) Click the Network Icon.
3) The Network Configuration Page will appear:
4) Select “Airport” in the left hand menu.
5) Set the “Location” drop down menu to “Automatic”.
6) Set the Network Name to “MIT Guest”.
7) Check the Airport status in the menu bar to verify connectivity.
8) Start a web browser and load any web page possible (web.mit.edu; www.cnn.com, etc).
9) This will automatically load the MIT Guest registration page.
10) Fill out the form.
11) Reboot the computer.

Enabling Wireless Support in Windows

1) From the Start menu, choose Control Panel.
   Result: The Control Panel window opens.
2) Click Network and Internet.
   Result: The Network and Internet window opens.
3) Under Network and Sharing Center, click Connect to a network.
   Result: Either a Currently connected to: or Not connected window opens, showing which connections are available.
4) Select the MIT GUEST network.
5) Click Connect.
6) Start a Web Browser such as Internet Explorer or Firefox and load any web page on the Internet (web.mit.edu; www.cnn.com; etc)
7) The MIT GUEST registration page will appear instead.
8) Fill out the MIT GUEST Registration page and press the SUBMIT button.
9) Once the registration is complete, please reboot the computer.
