## ***ARI DIRECTORIES OF CERTIFIED PRODUCTS***

### **Directory of Certified Air-to-Air Energy Recovery Ventilation Equipment.**

This directory lists certified air-to-air energy recovery ventilation components verified under ARI Standard 1060. It is updated periodically and available electronically as a free download from [www.ariprimenet.org](http://www.ariprimenet.org).

### **Directory of Certified Applied Air-Conditioning Products.**

This directory provides information on air cooling/heating coils, central station air handling units, room fan-coil air conditioners, packaged terminal air conditioners and heat pumps, water source and ground water source heat pumps, ground source closed-loop heat pumps, variable air volume terminals, unitary large equipment, positive displacement compressors, air-cooled rotary screw water-chilling packages and non-condensable gas purge equipment. It is continuously updated and available online at [www.ariprimenet.org](http://www.ariprimenet.org) with search capabilities. A free downloadable version is available twice yearly (May and October). A CD-Rom version is available for purchase for \$99.00.

### **Directory of Certified Automatic Commercial Ice-Cube Machines and Ice Storage Bins.**

This directory lists certified batch type (not flake type) automatic commercial ice-cube machines and ice storage bins as verified under ARI Standards 810 and 820. A free downloadable version is available twice yearly (January and July) from [www.ariprimenet.org](http://www.ariprimenet.org). Also available in a paper format for \$2.00.

### **Directory of Certified Direct Geexchange Heat Pumps.**

This directory lists certified direct geexchange heat pumps verified under ARI Standard 870. It is updated periodically and available electronically as a free download from [www.ariprimenet.org](http://www.ariprimenet.org).

### **Directory of Certified Drinking-Water Coolers.**

This directory lists all self-contained mechanically-refrigerated drinking water coolers of both bottle and pressure type as certified under ARI Standard 1010. A free downloadable version is available every July from [www.ariprimenet.org](http://www.ariprimenet.org).

### **Directory of Certified Refrigerant Recovery/Recycling Equipment, Reclaimed Refrigerants, and Refrigerant Testing Laboratories.**

This directory reflects verification that reclaimed refrigerants meet the purity levels of ARI Standard 700, as well as verification of performance of recovery, recovery/recycling, and recycling equipment to ARI Standard 740 and certified refrigerant laboratories testing to ARI Standard 700. A free downloadable version is available twice yearly (January and July) from [www.ariprimenet.org](http://www.ariprimenet.org). Also available in a paper format for \$4.00.

### **Directory of Certified Transport Refrigeration Units.**

This directory lists certified transport refrigeration units verified under ARI Standard 1110. A free downloadable version is available every January from [www.ariprimenet.org](http://www.ariprimenet.org).

### **Directory of Certified Unitary Products.**

This directory contains listing of certified air-source unitary (residential and commercial) air-conditioners, air-source unitary heat pumps and sound-rated outdoor unitary equipment below 135,000 Btuh. It is continuously updated and available online at [www.ariprimenet.org](http://www.ariprimenet.org) with search capabilities. A free downloadable version is available twice yearly (May and October). A CD-Rom version is available for purchase for \$99.00.

## **EDUCATION AND TRAINING PUBLICATIONS**

---

***Air Conditioning Systems – Principles, Equipment and Services***  
**(ISBN 0-13-517921-1)**

Hardcover textbook with over 350 pages is a basic, supplemental text dealing with a/c systems and the components that make up these systems.

***Refrigeration and Air-Conditioning, 4th Edition***  
**(ISBN 0-13-323775-3)**

Hardcover textbook, with almost 1100 pages and 1100 illustrations, C1998. Prentice-Hall.

***Understanding Electricity and Wiring Diagrams for HVACR***  
**(ISBN 0-13-517897-5)**

Hardcover textbook with over 300 pages is a basic, supplemental text dealing with electrical concepts and diagrams.
