

# living. learning. technologizing.

<http://web.mit.edu/restech/>

**Information Services & Technology** in partnership with the **Division of Student Life** is running a few technology experiments in MIT's residence halls this spring. Here are some ideas we've heard so far:

Shared  
displays for  
our laptops!

Dorm  
government  
e-tools: let **every  
student** have  
a vote!

Massively  
multi-player virtual  
dormitories!

Smart occupant-  
aware **team rooms!**

We want these to be **YOUR** projects. Please join us at one of two **brainstorming sessions** this IAP, open to any MIT dorm resident. The three P's will be provided by us (paper, pens, and **pizza**). You bring the ideas!

**Sidney & Pacific Owu Room (122)**  
**Tuesday, January 25th 2005**  
**4:00pm-7:00pm**

**Simmons Hall Multi-purpose Room**  
**Thursday, January 27th 2005**  
**5:30pm-8:30pm**
