

# MIT SCIENCE AND ENGINEERING BUSINESS CLUB presents...

## Consulting Study Break

Please join us for a dessert study break on Monday, **November 24** from **8:30 - 10:00 PM** at **Student Center Coffee House!**

- ❖ Not sure what consulting is? Join us as we go through a typical case study to showcase the typical duties of a consultant.
- ❖ Looking for a consulting internship? Warm up for 'that' case study: senior SEBC members will train you on how to crack that case interview as well as answer any questions
- ❖ If you missed the chance last time, come and pick up SEBC's Underground Guide to Consulting (MIT's ONLY comprehensive guide to consulting). We have reprinted this popular guide so you can have the insider's tips just before internship recruitment session. Stuffed with direct testimonials from interns and consultants of the top firms, it covers everything from the bare basics to the nitty-gritty details of how to be the best-prepared candidate for recruitment season!

No RSVP required; bring your friends!
