

McKinsey & Company, a management consulting firm with nearly 8,500 consultants in 89 offices across 50 countries, is hosting two exciting summer programs for students working towards advanced professional degrees: Insight 2009 and Insight Asia. These programs will give non-MBA advanced degree students an insider's look into management consulting. Each of the comprehensive seminars will cover a range of topics important to those who are exploring alternative career possibilities. Program agendas include an overview of management consulting, an introduction to the type of work we do, a management consulting case study, and an opportunity to interact and network with colleagues and participate in social activities. Both programs will be co-hosted on the same weekend in Philadelphia, Pennsylvania.

We are hosting several web based presentations to help graduate students learn more about McKinsey & Company and our Insight programs. These presentations are designed for: MDs, Residents, Medical Interns, Fellows, PhDs, Post-docs and non-MBA Masters students*. If you are interested in attending one of these presentations please RSVP through our website:
