Directions from Kendall MIT Subway Stop (via automobile)

From Kendall MIT take Main St. east across the Charles River. Go straight through the light (slight curve left under Subway tracks then right again). Proceed straight (now on Cambridge Street) slightly past Blossom street until the “Charles River Plaza” is visible on the left. Turn left and enter the parking lot (10 minute grace period). A Whole Foods will be visible in the right corner of the parking lot; the Richard B. Simches building is located to the left of the Whole Foods – look for the lettering above the doors. Enter the Lobby. If you are a visitor or don’t have a security badge, call for assistance in getting through security.

Directions from Charles/MGH Subway Stop (on foot)

Exit onto the North (MGH) side of Cambridge Street. Walk along Cambridge Street until passing Blossom Street. Just before the Charles River Plaza sign there will be a pedestrian ramp leading into the Charles River Plaza parking lot. Look for the Richard B. Simches Building across the parking lot and to the left slightly. Walk across the parking lot and enter the Lobby. If you are a visitor or don’t have a security badge, call for assistance in getting through security.
