

Fast Facts 2008

Hill-Rom was founded in 1929 with a goal of “bringing the home into the hospital.” Today, Hill-Rom has almost 80 years experience collaborating with caregivers to deliver safe, efficient and effective patient care in acute care, long-term care and home care settings. The company’s extensive product and service offerings includes patient care beds, stretchers, therapeutic surfaces and devices, patient flow solutions, bariatric solutions, nurse communication systems, headwalls and facility assessments.

Hill-Rom also provides expert consultation to help improve asset productivity, operational efficiency and patient outcomes. In addition, Hill-Rom offers comprehensive asset management programs and on-demand medical equipment rental.

Hill-Rom’s global headquarters is located in Batesville, Indiana in the United States. The company employs about 6,300 people worldwide. Hill-Rom is a publicly-traded company listed on the New York Stock Exchange as HRC. The company web site can be found at www.hill-rom.com.

Employees:

More than approximately 6,300 employees worldwide, including approximately 2,000 at its global headquarters in Batesville, Indiana.

Founded:

William A. Hillenbrand founded the company on October 23, 1929.

Come join our new Hill-Rom team in Singapore!

Hill-Rom is a health care industry leader in providing customers with high-quality, innovative products and services since 1929. 2007 sales exceeded US \$1.3 billion. Our headquarters is located in Batesville, Indiana (USA) and we currently employ more than 6,500 people worldwide. In Singapore, we are located in Yishun, in a new 11,000 square feet facility that houses our sales/marketing, engineering, and sourcing personnel. Hill-Rom solutions include: patient-care beds, stretchers, therapy surfaces, nurse communication systems, workflow systems, headwall systems, and patient room furniture. Please visit www.hill-rom.com for more details about our company. Our mission is simple: ***Everyday we strive to make a positive difference in the lives of patients and those who care for them.***

We are currently seeking engineers to join our new Asia-Pacific Innovation Center (APIC) in Singapore. Now is an exciting time to join us as we build our technical organization to serve the needs of our global Hill-Rom customers. APIC will be responsible for new product development, design, and sourcing support of Hill-Rom's innovative products and technologies.
