and then adjusted in Photoshop.

Self-Portraits

New York City

My 5 print black & white film series.

Counterclockwise starting from
above: Chinatown, 42nd Street sign,
man cleaning side walk,
CBS building, skyscraper

Homosassa Springs State Park, FL

Alligators, birds, manatees shot with digital camera

Florida Landscapes

Final Project

Photograph of final project done in dark room (it was too large and oddly shaped to scan). At the center, two photographs are woven together. Four photographs are attached together, all images of public transportation or city signs. All but the lower left-hand photograph are solarized images. For the text to stand out on the solarized images, unsolarized signs were cut and pasted.
