

# Community Attitudes on Sexual Assault

C1.1 Dear MIT Students,

Commented [JSP1]: Seen by 3937 students.

MIT is asking all students to answer a brief survey, sponsored by the Chancellor in collaboration with MIT Violence Prevention and Response (VPR) and MIT Medical. The purpose of this study is to collect data from current undergraduates and graduates as well as recent alumni on the social and cultural climate at MIT. This survey is made up of several sections that ask about your knowledge, opinions, and beliefs on certain subjects, including how to react in social situations, perceptions, and experience with sexual situations, as well as how you view various aspects of MIT culture.

This survey should take most students 10-15 minutes to complete. This survey is completely ANONYMOUS and VOLUNTARY. Your response will NOT be part of any academic, medical, or disciplinary record. You do NOT have to participate in this survey, and if you do choose to participate, you may skip any question you are not comfortable answering and may exit the survey at any time.

As an incentive, every student who completes the survey will be offered a **\$10 thank you gift**: your choice of \$10 TechCASH, a \$10 donation to Violence Prevention and Response at MIT Medical, or a \$10 donation to Stop Our Silence, a student group dedicated to bringing awareness to the problem of sexual assault. You will have the opportunity to pick your thank you gift at the end in a survey separate from any responses you provide on the main part of the survey.

TRIGGER WARNING: Some of the questions in this survey use explicit language, including anatomical names of body parts and specific behaviors to ask about sexual situations. This survey also asks about sexual assault and other forms of sexual violence which may be upsetting. Resources for support will be available on every page of the survey, should you need them.

C1.2 1. Which of the following best describes your current affiliation with MIT?

## C2.1 MIT Community Attitudes

### C2.1 1. How strongly do you agree or disagree with the following statements?

	Strongly Disagree	Disagree	Neither Agree or Disagree	Agree	Strongly Agree
Students at MIT respect one another's personal space.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Most MIT students would respect someone who did something to prevent a sexual assault.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I trust that my friends would watch out for me if it seemed like something bad might happen to me at a party or social event.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Commented [JSP5]:** SOURCE: These are new questions based on anecdotes, meetings, discussion, etc.

### C3.1 Your Views

C3.2 Please note: These statements are intentionally heteronormative in nature – in other words, they are gendered and are based on sexual situations that occur between one man and one woman (it is assumed that they are heterosexual). While it is true that people of any gender can commit assault and/or be assaulted, these particular statements are meant to reflect very specific beliefs tied to gender that some people hold.

#### C3.3 How strongly do YOU agree or disagree with the following statements?

There is no correct answer. The question is not whether you feel these statements apply to all cases of sexual assault, or if there is a case where a statement may not apply. These questions are asking about how you feel about the following statements, and how strongly you agree with them.

**Commented [JSP6]:** 87% answered

	Strongly Disagree	Disagree	Neither Agree or Disagree	Agree	Strongly Agree
It is not necessary to get consent before sexual activity if you are in a relationship with that person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I believe it is important to get consent before sexual activity.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
When someone is raped or sexually assaulted, it's often because the way they said "no" was unclear or there was some miscommunication.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sexual assault and rape happen because men can get carried away in sexual situations once they've started.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Rape and sexual assault happen because people put themselves in bad situations.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel confident in my ability to judge if someone is too intoxicated to give consent to sexual activity.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Rape and sexual assault can happen unintentionally, especially if alcohol is involved.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A person who is sexually assaulted or raped while she or he is drunk is at least somewhat responsible for putting themselves in that position.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Many women who claim they were raped agreed to have sex and then regretted it afterwards.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
An incident can only be sexual assault or rape if the person says "no."	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Did any of the following negative thoughts or concerns cross your mind when you were deciding whether or not to share or report your experience? Please check all that apply.

- Did not know who I should tell
- Did not want anyone to know the other things I was doing at the time (e.g., drinking underage, using drugs)
- Felt embarrassed or ashamed, didn't want anyone to know what happened
- Felt that I was at least partly at fault or it wasn't totally the other person's fault
- Afraid of retaliation by person who did it or others
- Not clear that harm was intended
- Did not think it was serious enough to share
- Lack of proof that incident happened
- Fear of being treated with hostility by the person I would tell
- Fear of being blamed or not believed by the person I would tell
- Did not want the person who did it to get into trouble
- Did not want any action to be taken (i.e. arrests, legal charges, disciplinary action)
- Didn't think the MIT administration would do anything
- Did not want to ruin the person's life or hurt their future
- Worried that if I tell someone at the Institute, the MIT administration will take action against the entire organization/group that this person belongs to, rather than just the person who did something wrong
- Worried that if I tell someone at the Institute, the MIT administration will take action on their own without my permission

**Commented [M22]:** This question is similar to the White House survey q.34 p. 26  
<https://www.notalone.gov/assets/ovw-climate-survey.pdf>

However, the White House survey asks "why did you not tell" whereas this question allows for the possibility that a person who does tell may still feel the same insecurities that a person who doesn't tell.

C14.2 1. Earlier in the survey, you indicated how strongly do you agreed or disagreed with the following statements.

How strongly would the average MIT {graduate/undergraduate student} agree or disagree with the following statements? *These questions are not trying to get at accuracy; they are asking only about your perceptions. Please note: These statements are intentionally heteronormative in nature – in other words, they are gendered and are based on sexual situations that occur between one man and one woman (it is assumed that they are heterosexual). While it is true that people of any gender can commit assault and/or be assaulted, these particular statements are meant to reflect very specific beliefs tied to gender that some people hold.*

## C18.1 Resources and Protocols

This section is asking about students' likelihood of using various campus resources in the aftermath of sexual assault. If you have been assaulted, please answer only what you think you would do in the future if you were assaulted again, not what you did following the assault that occurred. We are asking the question this way because we want to know what you would do with all of the knowledge you currently have, not what you did before you had experience with various resources.

C18.2 1. Would you use any of the following resources if you were to be sexually assaulted in the future? Please only answer what you think you would do in the future, not what you have done in the past.
